## DUTCH QUALITY FOR THE KITCHEN

Ever since 1976, Reginox has led the way in quality and innovation in sinks and worktops for the kitchen, project and healthcare markets. We design, develop and produce these products in-house, in numerous styles and versions. We also supply matching taps and accessories.

With our constantly-evolving range, we are a major player in the national and international kitchen and project markets. One reason for this is that we always pay close attention to the desires of consumers and kitchen professionals. We very consciously choose high-quality materials and techniques, and go the extra mile to fulfill our customers' wishes. Of course, we also pay attention to sustainability, through energy efficiency and by choosing recyclable materials and packaging wherever possible.

REGINOX STANDS FOR HIGH  
QUALITY AND INNOVATIVE  
SINKS AND WORKTOPS

## DUTCH MANUFACTURING

Reginox is located in Rijssen, in the Eastern part of the Netherlands. It is where we develop and produce all our stainless steel sinks.

# THE CROWN FOR YOUR **KITCHEN**

RELIABLE

RESPONSIBLE

INNOVATIVE

## DESIGN

Reginox knows the value of design and knows how to make the most beautiful designs from stainless steel.

## PRODUCT INFORMATION

Reginox sinks are straightforward and simple to install ensuring a sleek, modern finish no matter which installation method you choose.

### INTEGRATED SINKS

Our integrated sinks can be installed in 3 ways: inset, semi-integrated (flush with the worktop) or undermount. All of our integrated sinks look stunning no matter the choice of installation, in any worktop with the exception of laminate.

### INSET SINKS

Our inset sinks can be installed quickly and easily bringing an effective finish to any kitchen. To install these the fitter will turn the sink upside down, draw around the complete sink edge and cut 10 mm in from this template. All our sinks are provided with necessary clips and must be sealed with silicone sealant for a water tight finish.

## CABINET SIZE

Due to specific cabinet sizes some sinks may not be suitable for your kitchen. At Reginox we supply a wide range sinks, each design in various sizes to fit every cabinet size, these vary from 40 cm to 100 cm. The cabinet size is the available space underneath the worktop required for the bowl and other fixings only.

## TECHNICAL INFORMATION

At Reginox we supply technical drawings for all our sinks and clear fitting instructions. We can also supply routing jigs to size or the necessary software for CNC milling machines.

## MAINTENANCE TIPS

- Clean the sinks with hot soapy water for everyday maintenance.
- Regular use of Inox Care to maintain your sink or stainless steel worktop. Rub this in using a microfibre cloth and buff out using a new, clean cloth once a week.
- No abrasive cleaners or sponges should be used on the sinks to avoid any visible stains, scratches or marks.

## LIABILITY

Reginox is not liable for damage during installation or due to incorrect maintenance.

STYLISH AS  
NEW YORK

## WHERE STYLE IS EXPECTED

Some people see New York as one of the most vibrant and most exciting cities in the world.

It leads the way with its style, design and trends. You will see these characteristics in the New York range by Reginox. These sinks have a sleek and modern design, they are deep-drawn without welding or folded seams.

The new comfort plug waste outlet also means there is less chance of leaks and bacteria build up, as well as adding to the sleek appearance of the whole sink.

NEW YORK SINKS HAVE

## NEW YORK'S NEAREST NEIGHBOUR

Just as New Jersey is the geographical extension of global city New York, the New Jersey line is an extension of our best seller: the New York sink. The New Jersey is also a very modern design sink with an internal and external radius of 10 mm and a deep-drawn plug. The difference lies in the slightly smaller horizontal depth (37 cm instead of 40 cm). This means the New Jersey makes it even easier to fit taps in worktops of 60 cm deep.

# WHERE BEING DIFFERENT MATTERS

Our range of PVD coloured sinks is as varied and beautiful as the well-known city of Miami. Available in 3 colours, Copper, Gold and Gun Metal and 3 fitting styles (inset, semi-integrated and undermount), this range is as distinct as the city it is named after.

## GUN METAL – COPPER – GOLD

The Miami line contains sinks and taps with a stylish design, available in three unique colours: Gun Metal, Copper and Gold. We have created these colours with the help of the PVD-technic, in which stainless steel is coated using vapour deposition.

The Miami sinks are 200 mm deep and have a radius of 10 mm. They are available in the sizes 40x40 cm and 50x40 cm, and are suitable for integrated, semi-integrated and underbuild installation. The Miami taps are available in two models: Cano and Crystal. In short, a complete line for people looking for colour in the kitchen. That's the beauty of Miami.

HIGH-QUALITY  
**APPEARANCE**

# ON THE EDGE OF REVOLUTION

The exclusive design of the Niagara sink makes it a must have for any modern, economical, hygienic kitchen. Deep-drawn in one piece, it is a beautifully sleek dual level sink. This design helps to save water whilst also creating extra space for separate washing of smaller items or storage of sink accessories.

The supplied bottomgrid helps to protect the bottom of the sink, ensuring practicality and design. As well as saving water, this sink has another environmental benefit. It is made from 80% recycled stainless steel and includes large radiuses which make for easy cleaning. Innovative, environmentally friendly and uber practical: Niagara is the perfect combination.

## PRACTICAL DESIGN

Our Ohio range is available in many sizes. With both tapwing and non tapwing models available, this modern range can be undermount, semi-integrated or inset easily.

This high quality, stylish and exclusive range also conforms to strict food safety standards.

With 15 and 26,5 mm radiuses these sinks are easy to clean. Including a beautiful design overflow this range fits easily into any kitchen for both style and practicality.

THE INNERRADIUS OF THESE SINKS IS 26,5 MM, THE BOTTOM RADIUS IS 15 MM

# THE LUXURIOUS LOOK OF TEXAS

The Texas range is one of our most luxurious ranges. With a square strainer, subtle overflow and satin finish this range is perfect for any modern kitchen. The overall sleekness of the Texas range is accentuated by the small 10 mm radiuses both vertically and horizontally making this a hygienic, easy to clean sink. The sink is suitable for undermount, integrated and semi-integrated installation.

# REGENERATION AND GROWTH

Following on from our successful Nevada range Reginox has introduced Phoenix. Made from high grade polished steel for a contemporary look, it is available in both hands and 2 sizes. The Phoenix boasts a square strainer, modern design overflow and tapwing. These unique features have been transferred from the Nevada. With a smooth drainer and large bowls the Phoenix range is ideal for all sink uses and is especially useful for large items which may not fit into a dishwasher or that needs extra care handwashing. It also has seamless exterior radiuses of 10 mm meaning both vertically and horizontally this sink is easy to keep clean and avoid build-up of bacteria and dirt.

MATERIALS AND TECHNIQUES

# HELLO HOUSTON

Our Houston range combines style with price, as part of our entry level range this line is perfect for any project wanting to add a certain elegance to a budget kitchen.

As with many of our other sinks the Houston is a deep-drawn sink with a 200 mm bowl depth which adds durability and sustainability to this already appealing range.

A diverse range with diverse applications!

# COLORADO COMFORT: WHERE COMFORT MEETS **DIVERSITY**

This sink envisions a simplistic, refined design, with a sleek horizontal overflow and a polished silk finish. Because of the deep-drawn manufacturing process the Colorado has no seams or edges. The new integrated comfort waste also means there is less chance of leaks and bacteria build up.

# THE BENEFITS OF THE DELTA

In terms of manufacturing this Delta is based on existing moulds that are familiar to Reginox, meaning the Delta10 can be rapidly produced at a lower cost which benefits our customers. With a bowl depth of 180 mm, steel gauge of 0,6 mm and overall size of 860x500 mm this sink is a flawless addition to any budget kitchen on the project market.

# EVERYTHING IS ABOUT **HYGIENE**

## CLEAN & CARE SINKS

The Clean and Care collection has been especially designed by Reginox for environments where stainless steel sinks are mandatory. These include dentists, hospitals, medical practices, bars, discos, restaurants, public toilets, petrol stations and large office buildings.

With the Clean and Care sink units, hygiene and practicality are our top priorities. As many of our Clean and Care units are produced without an overflow and varying plug options, our models can be produced using 304 stainless steel as standard or (several models are available) in 316 stainless steel. By using the 316 grade these sinks can come into contact with chlorine or corrosive acids, such as in science labs. The sinks are coated with molybdenum, a silvery-white metal that is very ductile and has a very high melting point.

# AQUA LINE WASHBASIN UNITS

Our aqua line basins bring together all requirements related to durability and hygiene, due to our uninterrupted manufacturing process even the smallest dimensional tolerances are observed. The aqua line basins can be supplied with or without overflow and differing plug options for the upmost hygiene.

## THE VERSATILE COMBINATIONS OF GRANITE

Our range of granite sinks are made from a powerful combination of granite and synthetic resin. We have three ranges available, Amsterdam, Harlem and Breda, in a total of 17 models and 5 colours: Pure White, Black Silvery, Grey Silvery, Caffè Silvery and Dark Chocolate.

This material is also very hygienic, easy to clean and maintain, meaning that they will look better for much longer than some other materials.

WHERE TRADITIONAL MEETS  
**CONTEMPORARY**

Our ceramic sinks are a contemporary alternative to other materials in our range and can be an effective feature piece in any kitchen. These sinks are made in fireclay ovens meaning they are superior in strength and have a high glossy finish. Due to this manufacturing process these sinks do have a tolerance either way. Our ceramic range has a wide range of variety from inset sinks with a drainer available in both black and white to undermount sinks without drainer.

# KITCHEN TAPS

SWIVEL RANGE OF THE TAPS IS 360°

Taps are used intensively. The ideal kitchen tap has to be a right combination of design and functionality. That is why it's important to choose the right tap with your sink. Reginox has a lot of taps in her assortment, both in chrome and brushed stainless steel. We have a five year warranty period on almost all taps.

## MODERN DESIGNED KITCHEN TAPS

## SPACE SAVING SYPHON

The space saving syphon is a cutting-edge design that helps to utilise the space under your kitchen sink. This unique space saving design incorporates a 'none return valve' which removes the need for a bulky trap. It takes the pipework to the back of the cabinet meaning you can save space which is otherwise wasted by a traditional syphon.

Our Panama is suitable for any type of sink, with its modern, simple design can make a huge difference to any kitchen.

## LUXURY STAINLESS STEEL **WORKTOPS**

### DESIGN - TIMELESS - QUALITY

A stainless steel finish for your worktops is the most iconic material you can choose for a modern, sleek and hygienic kitchen. Stainless steel has many practical benefits to bring to your kitchen, such as ease of cleaning and maintenance and highly hygienic. Reginox worktops are made uniquely for each customer from high quality, recycled steel at our factory, available in any design and size you choose.

At Reginox we have a keen eye for detail and quality, we can produce the worktops without seams, depending on the length, finish and thickness, which may vary from 10 mm to a maximum of 40 mm. Seamlessly-welded cooktops are also available from Reginox.

## CORNER FINISH

For the corner joints on your worktop there are 3 variants you can choose from: a welded seam, a bolted joint or an almost seamless mitre jointed adhesive seam. The mitre jointed adhesive seam is particularly suitable in situations where welding may have an adverse effect on the quality of the final product or where the dimensions of the worktop are so large that delivery or installation in one piece would be problematic. We only want to supply the upmost quality for our customers, so let us help you choose the best version.

## EDGE PROFILES

To enhance the appearance of worktops, we can manufacture these with various edge profiles. The edge thickness of your unique worktop can vary from 10 mm to 40 mm.

## STAINLESS STEEL END SUPPORTS

Our worktops can rest on the base cabinet. But rather than limit our product to this only installation option stainless steel end supports can also be used to support the worktop. These supports are also available in various lengths, widths and depths and made to fit any kitchen for a unique finish.

## STAINLESS STEEL PANELS

We can also manufacture made-to-measure stainless steel panels. These too are available in various designs and sizes. For example, the rear- or side wall of your kitchen can match your unique worktop.

# OUR LUXURY STAINLESS STEEL WORKTOPS **FACTS AND FIGURES**

### LENGTH

Up to 6 meter

### WORKTOP THICKNESS

From 10 mm to 40 mm

### STAINLESS STEEL THICKNESS

1 mm to 1.2 mm
